

Ron Sunny

React Developer

Email: ronsunny19@gmail.com | GitHub: github.com/Skywalker9248 | LinkedIn: linkedin.com/in/ron-sunny

Professional Summary

Innovative and performance-driven React developer with 3+ years of experience in building responsive, scalable, and modern web applications. Proven expertise in designing dynamic UI components, integrating REST APIs, and managing complex state logic using Redux. Adept at end-to-end feature delivery and leading cross-functional collaboration. Currently exploring cloud technologies (AWS) and Docker while refining full-stack capabilities.

Key Skills

- Frontend: React.js, Next.js, Redux, Tailwind CSS, Bootstrap, Material UI, Typescript
- Backend: Node.js, REST APIs
- Dev Tools: Git, Docker
- Other: Problem Solving, Prompt Engineering

Experience Highlights

React Developer — Sapaad Pte Ltd, India (July 2022 – *Present*)

- Co-developed a QR-based restaurant ordering app with seamless table-side ordering and smart menu rendering.
- Co-developed an extended QR-based payment app, incorporating secure multi-gateway integration.
- Integrated payment methods such as Magnati, Stripe, and Paytabs in production-ready systems.
- Co-developed a dashboard with dynamic charts and maps using Apache Charts, Mapbox, and AG Grid.
- Developed a promotion engine UI layer to handle discount logic dynamically via React components.
- Led project integrations, coordinating with tech leads, designers, and backend engineers.
- Resolved critical bugs and performance bottlenecks, improving app load time and stability.

Technical Projects

- Portfolio Site: Personal website built with Next.js, Tailwind CSS, and Framer Motion.
- Defeit: Frontend for a blockchain-based drug verification app using React and Bootstrap.

Education

Bachelor of Technology — Computer Science

Kerala Technological University, India (2018-2022)
